Notice of Non-Responsive Amendment

1. The amendment filed on February 12, 2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because, as previously explained in the office action mailed October, 3, 2002, the inventions now claimed, i.e. medication delivery apparatus and a combination packaging and medical device, are related as mutually exclusive species in an intermediate-final product relationship, with the original filed invention of a transparent plastic member. Furthermore, new claim 29 it is directed to a method labeling a packaging etc., i.e. a method of using, and therefore related as product and method of using the product. Therefore, since all of the claims directed to the original filed invention, i.e. the transparent plastic member, have been canceled the amendment is non-responsive.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
